DISASTER  
RESPONSE

## Communities in Haiti Access New Technologies for Early Warning/Response (CHANTER)

**Lead**

Mercy Corps

**Partner**

Viamo

**Country**

Haiti

### HOW IT WORKS

CHANTER will leverage Viamo's mobile communications platform, via MNO Digicel's network, to deliver:

A 12-week curriculum on extreme weather preparation and first response practices

Early warning messages and calls to action ahead of extreme weather events

Messages will be tailored to users...

...and supplemented with community engagement by local organisations.

SMS or Interactive Voice Response (IVR)

Livelihood activity

Location

### IMPACT

CHANTER will reduce vulnerability to severe weather by helping users and their communities to:

Limit loss of income

Better prepare their households and their livelihood activities for extreme weather events

Reduce the risk of physical harm

The GSMA Mobile for Humanitarian Innovation Fund promotes innovation in the use of mobile technology to address humanitarian challenges.
