GSMA™ Security Accreditation Scheme ☑ Accredited Supplier

Scope of Certification

To be viewed as part of Security Accreditation Scheme Certificate No: AWS-MR-SM-1025

Production Site: **Amazon Web Services, Inc.**

Site Address: **AWS data centres in US East (Ohio) & Europe (Paris) cloud regions**

Supporting site(s) details: **Type: Centralised governance of compliance services; configuration, support & management of AWS services. Amazon Web Services, 410 Terry Ave N, Seattle, Washington, 98109, USA. Expiry date: October 2025**

The auditors were provided with appropriate evidence that the processes and controls on the audit dates were consistent with those required by the SAS-SM Standard v4.1 and the SAS Consolidated Security Requirements and Guidelines v11.0., with the following scope:

Data Centre Operations and Management	Within audit scope for cloud hosting	**HSM Managed Service**	Out of scope

Notes & Exclusions:
This certification (for Data Centre Operations and Management) excludes any management of SM applications or SM application data.
The certified cloud regions do not provide SM clients with physical access to IT infrastructure.
This audit used a data centre and service sampling approach. The audit team is satisfied that this approach has provided sufficient assurance of the cloud regions' compliance with the SAS requirements.
