

GSMA

APAC 5G
INDUSTRY COMMUNITY

5G as Driver of Digital Transformation in Industries

Terence Wong, Head of APAC 5G Industry & IoT Community, GSMA

June 2024

5G Commercialisation: Global Overview

End of Q1 2024, 295 operators in 114 markets have launched mobile 5G

20+ APAC market with 5G

By end 2030: 652 operators will launch in 225 markets

Note: Status assigned where an operator has stated a commitment/timeline (planned) or announced a commercial 5G launch (live). Status is defined as live where at least one operator has commercially launched (mobile/fixed) 5G services.

Data correct to 31 March 2024

Largest 5G Alliance of regional ecosystems and global partnership

APAC National 5G Alliance/Hub in different market

1000+ organization (Govt, MNOs, enterprises and ecosystem) across 80+ market

Global 5G Alliances across sectors and market beyond APAC

Digital pioneers across market and sectors

Phupa Akavipat

Acting Chief Enterprise Business Officer, Advanced Info Services Plc. (AIS)

Feby Sallyanto

Chief Enterprise Officer, XL Axiata

Widiya Kumoro

Head of ICT & Digitalization Mining Industry, Indonesia

M Feizal M Ghazali

Custodian (Head Instrument & Control), Group Technical Solution/GTS, Petronas (Malaysia Oil & Gas enterprise)

Lily Lai

Chief Information Officer, Airport Authority Hong Kong

Andy C. Bien

Chief Digital Officer, Global Aviation of Huawei Technologies

Dr Cherdchai

Deputy Dean for Service Innovation and Organization Value Siriraj Hospital, Thailand

Dr. Gao

Assistant Group CTO, NUHS, Singapore

Willis Sim

Chief Corporate Sales & Solutions Officer, M1

Wai Kiat Kwok

Vice President, Enterprise Product Management & Development, Telkomsel

Mr ST Liew

Vice President and President of Taiwan, SEA, Australia & New Zealand Qualcomm Technologie:

Takehiro Nakamura

Board member of 5G-ACIA and Chief Standardization Officer, NTT DOCOMO

Hakim Achouri

GSMA Digital Industries Co-chair at GSMA, Airbus

Sim Soon Huat

Head of IT Infrastructure, PSA Singapore

Prof Song Jianping

Professor of Neurosurgery Huashan Hospital, China

Prof Cha Wonchul

Chief Medical Informatics Officer Samsung Medical Center, South Korea

Deep-dive APAC workshops and case studies across sectors from pioneers

Advancing Smart Manufacturing in the 5G Era

Date: Thursday 2 Dec 2021
Time: 15:00 - 17:00 GMT+8
Venue: Online

5G Transforming Airport and Aviation

Date: Thursday 13 Jan 2022
Time: 15:00 - 17:00 GMT+8
Venue: Online
Registration link: <https://bit.ly/ap5gic-port>

How 5G and IoT tech will transform healthcare

Date: Thursday 17 Feb 2022
Time: 15:00 - 17:00 GMT+8
Venue: Online
Registration link: <https://bit.ly/ap5gic-health>

Leading Indonesia & ASEAN towards Industry 4.0 through Data-Driven approach

Date: Thursday 17 March 2022
Time: 15:00 - 17:00 GMT+8
Venue: Online
Registration: <https://bit.ly/ap5gic-mftg2>

Smart Port & Logistics in the 5G City

21 April 2022 15:00 - 17:00 GMT+8
Registration: <https://bit.ly/port-5gcity>

Connected Healthcare in the 5G Era

Date: Thursday 2 June 2022
Time: 15:00 - 17:00 GMT+8
Venue: Online
Registration link: <https://bit.ly/ap5gic-health2>

Digital Industry Summit
3 August 2022, 11:30 - 17:15, Singapore

Join us on Day 2 Mobile 360 APAC to learn how 5G create values for manufacturing, logistics & Port, and healthcare industries on digital transformation

REGISTER NOW
<https://bit.ly/M360-Industry-Summit>

5G Ecosystem
Unlocking opportunities through strategic partnership

Event date: 20 Sep 2022
Time: 15:00 - 17:00 GMT+8
Registration link: <https://bit.ly/5g-partnership>

Exploring how 5G is powering digital industries across APAC and Europe

Date: 22 November 2022
Time: 16:00 - 17:30 GMT+8
Registration: <https://bit.ly/digital-industries>

Digital Transformation in Mining and Energy in the 5G era

Date: Tuesday 12 Jan 2023
Time: 15:00 - 17:00 GMT+8
Registration link: <https://bit.ly/5gMining>

How 5G SA optimize manufacturing and productivity?

Date: Thursday 16 February 2023
Time: 15:00 - 17:00 GMT+8
Registration link: <https://bit.ly/5G-SA-mftg>

5G IoT will Redefine Logistics & Transportation

Date: 20 April 2023
15:00 - 17:00 GMT+8
Registration Link: <https://bit.ly/5GIoT-logistics>

时不我待
VELOCITY
UNLEASHING TOMORROW'S TECHNOLOGY - TODAY

5G brings new momentum to smart city development

Tuesday 25 July 2023
15:00 - 17:00 GMT+8

Invitation
GSMA APAC 5G Industry Community invites you to join this webinar with topics including:
• Overview of Smart City
• How 5G unlocks the new potential of urban applications
• Pioneer innovation and 5G examples

Digital Transformation: Strategies and Case Studies Across Sectors in the 5G Era

Thursday, 7th September
14:00pm - 15:25pm
Cosmos-Violet

APAC 7 - 8 September 2023

APAC 5G Industry Case Studies

Past activities on demand

How 5G is Transforming APAC

Ten case studies highlighting the utility and versatility of 5G technologies

September 2023

AIS - 5G Catalysing for Digital Revolution in the Cement Industry

AIS - Changing Wi-Fi to 5G in the Manufacturing Industry

China Mobile Hong Kong - 5G Network Solutions for Airport Operations

Hong Kong Telecom - Field Service Augmented by VR and Drone Using 5G with Edge for Reliable Performance

LG Uplus – Revolutionising the LG Uplus Smart Factory Industry in South Korea with 5G

M1 - 5G AR/VR Smart Glass Solution

PETRONAS & Telekom Malaysia Berhad -The Private 5G Network for the Oil and Gas Industry

ST Engineering - 5G-Enabled factory of the future

Singtel - Enabling seamless connectivity at large-scale consumer events with Singtel standalone 5G network

True - 5G Delivers Smoother Travel in Bangkok

Example manufacturing applications and enhancements 5G can offer

Automated guided vehicles (AGVs/AMRs)

- 5G enhances coverage and reliability, enabling AGVs to remain continuously connected to supervisory systems.
- 5G's increased bandwidth enables additional camera views to be relayed, while lower latency and higher resolution allow better decision-making for traffic co-ordination and safety.

Mobile robots/co-bots

- 5G supports higher density of robots and reliable factory-floor mobility for moving robots/co-bots.
- 5G's low latency allows for actions to be monitored in near-real-time. Co-bots can adjust their actions rapidly in response to a human co-worker and the surrounding environment.

AI/Machine vision

- 5G enables an increased density of higher resolution CCTV to be deployed, improving the range and accuracy of machine vision applications.
- If image analytics are conducted on the edge, low-latency alerts and remedial commands can be generated when issues are identified.

Digital Twin

- Low latency and improved bandwidth facilitate the collection of real-time datasets that can be analysed against historic data to identify patterns, improve processes and increase production efficiency.

Connected tools

- 5G improvements, in terms of coverage and reliability, facilitate remote connection of sensors.
- Massive IoT supports easy installation/retrofitting of battery-powered devices.
- 5G networks offer support for high device density with quality-of-service assurance.

Labour augmentation

- 5G and AI-powered industrial AR enable workforce training, support and skills development.
- Latency is critical to AR/VR to ensure the synchronisation of the virtual and real worlds.

Hyundai taps Singtel's 5G network in electric vehicle manufacturing

Being a Smart and Advance Factory

- 5G connectivity, cloud and edge computing as key enabler
- Use Automation, Robotics and AI
- Modular production line with robots moving part around, without conveyor belts
- 300 Sensors per module that capture large amount of data for Control System and Digital Twin
- On the fly configuration for testing new production methods, market research and building new vehicles
- Rooftop testing track and Automatic hydroponics farm
- Customization and delivery via automatic delivery system

Key pillars of Smart Port

Efficiency

- Optimizing port and terminal processes through digitalization and automation.
- Use of Big Data, Artificial Intelligence, Internet of Things, blockchain technology, and a 5G network

Resilience

- Able to adapt to changing circumstances and recover quickly from disruptions.
- Dealing with increasing ship sizes, geographically limited growth opportunities, and increasing pressure on the productivity of seaports

Collaboration

- The interconnectivity of all actors in the maritime supply chain through the automated transmission of mobile data in real time is a crucial aspect of the Smart Port concept.
- This increased connectivity among the individual actors improves performance

Sustainability

- With increasing demands to reduce emissions along the entire supply chain, Smart Ports are focusing on environmental aspects and sustainability, safety

5G enable Smart port around the world

APAC

- Hong Kong (#8) – [Hutchison Port Holdings Trust Implements 5G Technology](#)
- Korea (#6) - [Busan Port Authority to integrate 5G-enabled computing into yard operations](#)
- Singapore (#2) - [PSA enhancing Port's Connectivity with 5G for innovative use cases](#)
- Sri Lanka (#25) - [ZPMC contributes to build a green terminal for the Colombo International Container Terminal](#)
- Thailand (#20) – [Hutchison Ports ready to transform Laem Chabang into ASEAN smart port hub](#)

China mainland

- Guangzhou (#5) - [Guangzhou Port accelerates 5G intelligent port construction](#)
- Ningbo-Zhoushan (#3) - [Port with unmanned, automated, and intelligent operation](#)
- Qingdao (#7) - [5G smart harbor at the Port of Qingdao](#)
- Shanghai (#1) – [Shanghai Port Group Goes Smart with Centralized Remote Control Project](#)
- Shenzhen (#4) - [YANTIAN Becomes the First Port in South China to Equip Its Remote-Controlled RTGCs with 5G](#)
- Tianjin (#9) – [Digital Twin Project for Tianjin Port](#)

America, Europe and Middle East

- America (#17) – [Transforming Port Efficiency: Private Networks Unleash Order in Los Angeles port](#)
- Greece (#28) – [Vodafone Greece delivers private mobile network to Piraeus Port](#)
- Netherland (#10) – [5G makes intelligence port of Rotterdam](#)
- Belgium (#14) – [Network-as-a-Service technology to develop new maritime use cases at Port of Antwerp](#)
- UAE (#11) - [5G to lead reform of global smart port sector including ABU DHABI Port](#)

(#) Ranking source: <https://www.worldshipping.org/top-50-ports>

Real Case Study on a Smart Port in Thailand

Challenges

- Increase demand for efficiency and productivity in handling cargo and vessels
- The need to improve safety and security
- The needs to enhance overall performance in Port Terminals

APAC 5G Industry Community tentative activities (2024)

Activities	Date	Content
MWC Barcelona (Relevant for all interest group)	26 -29 Feb 2024	Physical conference and on-demand content. Speaking and show case in Industry City (Manufacturing Summit on 26 Feb, Smart Mobility Summit on 27 Feb and Manufacturing round-table on 26 Feb) Global 5G Alliances Summit on 29 Feb, networking and speaking opportunities 5G-ACIA, 5GAA, ETSI, GSMAi, GTI, Holomedicine Association, TCCA, MDES, Kominfo, AIS, Telkomsel, Petronas, Tech Mahindra, etc
Connected Industries for Digital Transformation @Singapore	3 April 2024	Physical event and networking GTI, HPE, Holomedicine Association & NUHS, IoTSG & AllThingsConnected, Quectel, Robocore, SGTech & Acronis, etc
Logistic, Port & Transportation	25 Apr 2024	Virtual Workshop with Q&A - Paving the way in Digitalisation and Sustainability for A Smarter and Greener Port AIS & Hutchison, Celcomdigi, ChangeMaker, China Mobile, eSix, GTI, Huawei, etc
MWC Shanghai (Relevant for all interest group)	25, 26-28 June 2024	5G tour to China (25 June). Physical conference and networking, 5G business roundtables.
Joint TCCA and APAC5GIC community	14 Aug 2024 (t.b.c)	Virtual Workshop with Q&A – Advancing Public Safety Critical Communication: From Voice-Centric to Data-Driven Solutions
Digital Nation Summit for Manufacturing, Mining, Oil & Gas @Jakarta	Sep 2024 (t.b.c)	Physical event and networking
5G Summit or Smart City @Bangkok (Relevant for manufacturing, Logistic, Port & Transportation, Healthcare, Public sector and Smart City)	2H 2024 (t.b.c)	Physical event and networking
Mobile360 APAC @Seoul (Relevant for Smart Mobility, Healthcare)	1-2 Oct 2024	Physical conference with exhibition Case studies and PR Speaking and show case opportunities
India Mobile Congress	15-19 Oct 2024	t.b.c
Manufacturing/Energy and sustainability	Nov 2024	Virtual Workshop with Q&A

**GSMA Digital Nations Summit for
Manufacturing, Mining, Oil & Gas**

JAKARTA

Early Sept 24

5G RedCap Case Studies

Welcome to join the community with benefits

Receive regular newsletter with latest 5G Industry development and insights

Access to the Industry Interest Group activities

Raise interest and support request to the contributor members i.e. Proof of Concept

Speaking and show case chances in GSMA 5G activities including webinar, conference and 5G tour, etc

Business matching opportunities for innovators, SI, enterprises and mobile operators

Potentially contribute to 5G industry report and case study

Application the [Global Mobile Award \(GLOMO\)](#) and Asia Mobile Award (AMO)

A profile card for Terence Wong. At the top is a circular headshot of a man with glasses. Below the photo, his name "Terence Wong" is written in bold, followed by his title "Head of APAC 5G Industry & IoT Community - an ecosystem with govt & a...". At the bottom of the card is a QR code.
