移动物联网产业全球化

Globalization of Mobile IoT Industry

途鸽科技董事长&CEO 张衡

Henry Zhang, Chairman & CEO, TUGE Technologies

移动物联网的两个趋势

Two trends in mobile IoT

全球化

Global Localization

智能化

AI enabled

海量应用场景 需要高性能的全球化通信能力

High-performance globalized connectivity is a must for fast growing demands

全球移动物联网的6大性能改进 1

6 Performance improvements in the global mobile IoT 1

单一国家

Single country

VS

全球多国

Cross countries

全球移动物联网的6大性能改进 2

6 Performance improvements in the global mobile IoT 2

单一网络

Network binding

VS

多网协同

Connectivity orchestration

全球移动物联网的6大性能改进 3

6 Performance improvements in the global mobile IoT 3

终端搜索网络

UE searching signals

VS

主动推送网络给终端

Platform pushing signals to UE

全球移动物联网的6大性能改进 4

6 Performance improvements in the global mobile IoT 4

蜂窝网

Cellular only

VS

多层网

Hydrogenius networks

全球移动物联网的6大性能改进 5

6 Performance improvements in the global mobile IoT 5

实体SIM卡

Physical SIM

VS

vSIM+eSIM

vSIM+eSIM

全球移动物联网的6大性能改进 6

6 Performance improvements in the global mobile IoT 6

被动运维

Passive O&M

VS

主动运维

Active O&M
